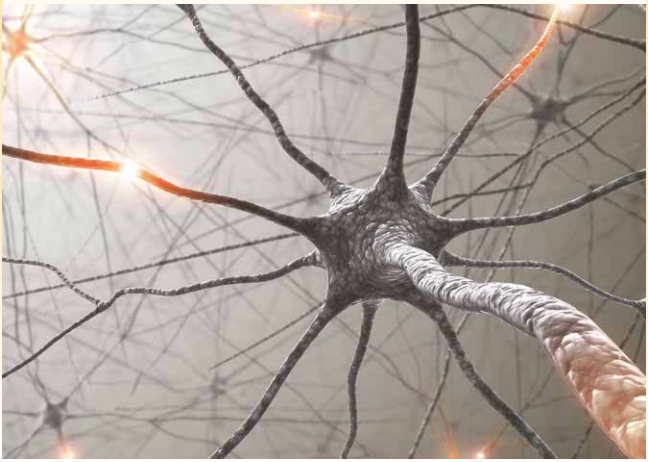
INTERNATIONAL
SUMMER SCHOOL

Clinical & Translational Neuroscience

August 21ST – 25TH, 2017

Georg-August-University Medical Center



UNIVERSITÄTSMEDIZIN GÖTTINGEN UMG

GÖTTINGEN SPIRIT SUMMER SCHOOL

GEORG-AUGUST-UNIVERSITÄT GÖTTINGEN

About

Experience an intensive week of Clinical Neurology and Translational Neuroscience covering diverse neuroscientific topics from bench to bedside.

Get to know Göttingen, the renowned Georg-August University and its researchers as well as the associated Medical Center (UMG).

Take part in seminars and hands-on workshops. Learn what's new in Clinical Neurology and its associated scientific fields. Listen to international experts and keynote speakers.

Be an active part and present your research. Engage in fruitful discussions, get new ideas and make use of ample opportunities to extend your scientific and clinical network.

Be inspired!

Program

Monday
Stroke, neurosonography, neuroimaging, neurocritical care, interventional neuroradiology

Tuesday
Neuroinflammation, CSF analyses, differential therapies in multiple sclerosis

Wednesday
Neurodegenerative diseases, dementia, Parkinson‘s disease movement disorders quiz

Thursday
Cognitive neurology, translational research

Friday
Neuromuscular disorders, neurophysiology, epilepsy

Everyday
Participants’ presentation of their research projects.
Join the discussion!

Who can participate?

Advanced medical students and young doctors with interest in Neurology who do research in the broad field of Neuroscience or Clinical Neurology are very welcome to apply.

Participation and accomodation are free of charge. The Summer School is supported by the Göttingen Spirit Program. The number of participants is limited (18) to allow for focused, intensive and productive work and study.

How to apply?

Please send a brief letter of motivation, short CV, short description of your research and topic of your talk to

neurolog@med.uni-goettingen.de
until May 15th 2017, no more than 2 pages
